Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I bought my 70 year old Mom a cell phone to keep with her in the car in case of emergency. Do you want to cause my 70 year old Mom to use more of her meager social security check to pay for people that want to live in rural areas? This would not be fair to her and everyone else that doesn't live in rural areas. If people want to live out of reach of universal services that's their choice. Why penalize everyone else for the minorities choice?

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
